

AIM V.I. International Growth Fund

PROSPECTUS

May 1, 2008

Series I shares

Shares of the fund are currently offered only to insurance company separate accounts funding variable annuity contracts and variable life insurance policies. AIM V.I. International Growth Fund's investment objective is long-term growth of capital.

This prospectus contains important information about the Series I class shares (Series I shares) of the fund. Please read it before investing and keep it for future reference.

As with all other mutual fund securities, the Securities and Exchange Commission has not approved or disapproved these securities or determined whether the information in this prospectus is adequate or accurate. Anyone who tells you otherwise is committing a crime.

An investment in the fund:

- is not FDIC insured;
- may lose value; and
- is not guaranteed by a bank.

No dealer, salesperson or any other person has been authorized to give any information or to make any representations other than those contained in this prospectus, and you should not rely on such other information or representations.

Shares of the fund are used as investment vehicles for variable annuity contracts and variable life insurance policies (variable products) issued by certain insurance companies. You cannot purchase shares of the fund directly. As an owner of a variable product (variable product owner) that offers the fund as an investment option, however, you may allocate your variable product values to a separate account of the insurance company that invests in shares of the fund.

Your variable product is offered through its own prospectus, which contains information about your variable product, including how to purchase the variable product and how to allocate variable product values to the fund.

Investment Objective and Strategies

The fund's investment objective is long-term growth of capital. The investment objective of the fund may be changed by the Board of Trustees (the Board) without shareholder approval.

The fund seeks to meet its objective by investing in a diversified portfolio of international equity securities whose issuers are considered by the fund's portfolio managers to have strong earnings growth. The fund focuses its investments in marketable equity securities of foreign companies that are listed on a recognized foreign or U.S. securities exchange or traded in a foreign or U.S. over-the-counter market. The fund will normally invest in the securities of companies located in at least four countries outside of the U.S., emphasizing investment in companies in the developed countries of Western Europe and the Pacific Basin.

At the present time, the fund's portfolio managers intend to invest no more than 20% of the fund's total assets in companies located in developing countries, i.e., those that are in the initial stages of their industrial cycles.

The fund's investments in the types of securities described in this prospectus vary from time to time, and at any time, the fund may not be invested in all types of securities described in this prospectus. Any percentage limitations with respect to assets of the fund are applied at the time of purchase.

The portfolio managers employ a disciplined investment strategy that emphasizes fundamental research, supported by quantitative analysis and portfolio construction techniques. The strategy primarily focuses on identifying quality companies that have experienced, or exhibit the potential for, accelerating or above average earnings growth but whose prices do not fully reflect these attributes. Investments for the portfolio are selected "bottom-up" on a stock-by-stock basis. The focus is on the strengths of individual companies, rather than sector or country trends. The fund's portfolio managers may consider selling a security for several reasons, including when (1) its fundamentals deteriorate or it posts disappointing earnings, (2) its stock price appears to be overvalued, or (3) a more attractive opportunity is identified.

The fund typically maintains a portion of its assets in cash, which is generally invested in money market funds advised by the fund's advisor. The fund holds cash to handle its daily cash needs, which include payment of fund expenses, redemption requests and securities transactions. The amount of cash held by the fund may increase if the fund takes a temporary defensive position. The fund may take a temporary defensive position when it receives unusually large redemption requests, or if there are inadequate investment opportunities due to adverse market, economic, political or other conditions. A larger amount of cash could negatively affect the fund's investment results in a period of rising market prices; conversely it could reduce the magnitude of a fund's loss in the event of falling market prices and provide liquidity to make additional investments or to meet redemptions. As a result, the fund may not achieve its investment objective.

Principal Risks of Investing in the Fund

There is a risk that you could lose all or a portion of your investment in the fund. The value of your investment in the fund will go up and down with the prices of the securities in which the fund invests. The prices of equity securities change in response to many factors, including the historical and prospective earnings of the issuer, the value of its assets, general economic conditions, interest rates, investor perceptions and market liquidity.

The dollar value of the fund's foreign investments will be affected by changes in the exchange rates between the dollar and the currencies in which those investments are traded. The value of the fund's foreign investments may be adversely affected by political and social instability in their home countries, by changes in economic or taxation policies in those countries, or by the difficulty in enforcing obligations in those countries. Foreign companies generally may be subject to less stringent regulations than U.S. companies, including financial reporting requirements and auditing and accounting controls. As a result, there generally is less publicly available information about foreign companies than about U.S. companies. Trading in many foreign securities may be less liquid and more volatile than U.S. securities due to the size of the market or other factors.

The foregoing characteristics may affect the prices of securities issued by foreign companies and governments located in developing countries more than those in countries with mature economies. For example, developing countries may experience higher rates of inflation or sharply devalued their currencies against the U.S. dollar, thereby causing the value of investments in companies located in those countries to decline. Transaction costs are often higher in developing countries, and there may be delays in settlement procedures.

There is no guarantee that the investment techniques and risk analyses used by the fund's portfolio managers will produce the desired results.

An investment in the fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance Information

The bar chart and table shown below provide an indication of the risks of investing in the fund. The fund's past performance is not necessarily an indication of its future performance. All performance shown assumes the reinvestment of dividends and capital gains. The bar chart shown does not reflect charges assessed in connection with your variable product; if it did, the performance shown would be lower.

ANNUAL TOTAL RETURNS

The following bar chart shows changes in the performance of the fund's Series I shares from year to year.

During the periods shown in the bar chart, the highest quarterly return was 41.88% (quarter ended December 31, 1999) and the lowest quarterly return was -19.80% (quarter ended September 30, 2002).

PERFORMANCE TABLE

The following performance table compares the fund's performance to those of an unmanaged broad-based securities market index, style specific index and peer group index. The fund is not managed to track the performance of any particular index, including the indices shown below, and consequently, the performance of the fund may deviate significantly from the performance of the indices shown below. A fund's past performance is not necessarily an indication of its future performance. The performance table shown below does not reflect charges assessed in connection with your variable product; if it did, the performance shown would be lower.

Average Annual Total Returns

(for the periods ended December 31, 2007)

	1 Year	5 Years	10 Years	Inception Date
AIM V.I. International Growth Fund	14.72%	22.66%	8.96%	05/05/93
MSCI EAFE® Index ^{1,2}	11.17	21.59	8.66	—
MSCI EAFE® Growth Index ^{1,2,3}	16.45	19.85	6.46	—
Lipper VUF International Growth Funds Index ^{1,2,4}	14.63	20.78	8.61	—

¹ The Morgan Stanley Capital International Europe, Australasia and Far East Index is a free float-adjusted market capitalization index that is designed to measure developed market equity performance, excluding the US & Canada. The fund has also included the MSCI EAFE® Growth Index, which the fund believes more closely reflects the performance of the securities in which the fund invests. In addition, the Lipper Variable Underlying Funds International Growth Funds Index (which may or may not include the fund) is included for comparison to a peer group.

² The indices may not reflect payment of fees, expenses or taxes.

³ The MSCI EAFE® Growth Index is an unmanaged index considered representative of growth stocks of Europe, Australasia, and the Far East.

⁴ The Lipper VUF International Growth Funds Index is an equally weighted representation of the largest variable insurance underlying funds in the Lipper International Growth Funds category. These funds invest at least 75% of their equity assets in companies strictly outside of the U.S. and typically have an above-average price-to-cash flow ratio, price-to-book ratio, and three-year sales-per-share growth value compared to the S&P/Citigroup World ex-U.S. Broad Market Index. The S&P/Citigroup World ex-U.S. BMI is a subset of the developed markets portion of the S&P/Citigroup Global BMI, excluding the United States. The S&P/Citigroup Global BMI is an unmanaged float adjusted index that reflects the stock markets of all countries that meet certain market capitalization criteria.

Fee Table and Expense Example

FEES AND EXPENSES OF THE FUND

The following table describes the fees and expenses that are incurred, directly or indirectly, when a variable product owner buys, holds, or redeems interest in an insurance company separate account that invests in the Series I shares of the fund but does not represent the effect of any fees or other expenses assessed in connection with your variable product, and if it did, expenses would be higher.

Shareholder Fees

<i>(fees paid directly from your investment)</i>	Series I shares
Maximum Sales Charge (Load)	N/A
Maximum Deferred Sales Charge (Load)	N/A

"N/A" in the above table means "not applicable."

Annual Fund Operating Expenses (Series I shares)¹

<i>(expenses that are deducted from Series I share assets)</i>	Series I shares
Management Fees	0.71%
Other Expenses	0.36
Acquired Fund Fees and Expenses	0.01
Total Annual Fund Operating Expenses	1.08
Fee Waiver and/or Expense Reimbursements ^{2,3}	0.01
Net Annual Fund Operating Expenses	1.07

¹ Except as otherwise noted, figures shown in the table are for the year ended December 31, 2007 and are expressed as a percentage of the fund's average daily net assets. There is no guarantee that actual expenses will be the same as those shown in the table.

² Effective July 1, 2007, through at least April 30, 2009, Invesco Aim contractually agreed to waive advisory fees in an amount equal to 100% of the advisory fee Invesco Aim receives from affiliated money market funds on investments by the fund in such affiliated money market funds. Fee Waiver reflects this agreement.

³ The fund's advisor has contractually agreed to waive advisory fees and/or reimburse expenses of Series I shares to the extent necessary to limit Total Annual Fund Operating Expenses (excluding certain items discussed below) of Series I shares to 1.30% of average daily net assets. In determining the advisor's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the Total Annual Fund Operating Expenses to exceed the number reflected above: (i) interest; (ii) taxes; (iii) dividend expense on short sales; (iv) extraordinary items; (v) expenses related to a merger or reorganization, as approved by the fund's Board of Trustees; and (vi) expenses that the fund has incurred but did not actually pay because of an expense offset arrangement. Currently, the expense offset arrangements from which the fund may benefit are in the form of credits that the fund receives from banks where the fund or its transfer agent has deposit accounts in which it holds uninvested cash. These credits are used to pay certain expenses incurred by the fund. This expense limitation agreement is in effect through at least April 30, 2009.

EXPENSE EXAMPLE

This example is intended to help you compare the costs of investing in the Series I shares of the fund with the cost of investing in other mutual funds.

This example does not represent the effect of any fees or other expenses assessed in connection with your variable product, and if it did, expenses would be higher.

The expense example assumes you:

- (i) invest \$10,000 in the fund's Series I shares for the time periods indicated;
- (ii) earn a 5% return on your investment before operating expenses each year; and
- (iii) incur the same amount in operating expenses each year (after giving effect to any applicable contractual fee waivers and/or expense reimbursements).

To the extent fees are waived and/or expenses are reimbursed voluntarily, your expenses will be lower. Although your actual returns and costs may be higher or lower, based on these assumptions your costs would be:

Series I shares	1 Year	3 Years	5 Years	10 Years
AIM V.I. International Growth Fund	\$109	\$342	\$595	\$1,316

Hypothetical Investment and Expense Information

The settlement agreement between Invesco Aim Advisors, Inc. and certain of its affiliates and the New York Attorney General requires Invesco Aim Advisors, Inc. and certain of its affiliates to provide certain hypothetical information regarding investment and expense information. The chart below is intended to reflect the annual and cumulative impact of the fund's expenses, including investment advisory fees and other fund costs, on the fund's return over a 10-year period. The example reflects the following:

- You invest \$10,000 in the fund and hold it for the entire 10 year period;
- Your investment has a 5% return before expenses each year; and
- The fund's current annual expense ratio includes any applicable contractual fee waiver or expense reimbursement for the period committed.

There is no assurance that the annual expense ratio will be the expense ratio for the fund for any of the years shown. To the extent that Invesco Aim Advisors, Inc. and certain of its affiliates make any fee waivers and/or expense reimbursements pursuant to a voluntary arrangement, your actual expenses may be less. The chart does not take into account any fees or other expenses assessed in connection with your variable product; if it did the expenses shown would be higher, while the ending balance shown would be lower. This is only a hypothetical presentation made to illustrate what expenses and returns would be under the above scenarios; your actual returns and expenses are likely to differ (higher or lower) from those shown below.

Series I	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
Annual Expense Ratio ¹	1.07%	1.08%	1.08%	1.08%	1.08%	1.08%	1.08%	1.08%	1.08%	1.08%
Cumulative Return Before Expenses	5.00%	10.25%	15.76%	21.55%	27.63%	34.01%	40.71%	47.75%	55.13%	62.89%
Cumulative Return After Expenses	3.93%	8.00%	12.24%	16.64%	21.21%	25.96%	30.90%	36.03%	41.36%	46.90%
End of Year Balance	\$10,393.00	\$10,800.41	\$11,223.78	\$11,663.75	\$12,120.97	\$12,596.12	\$13,089.88	\$13,603.01	\$14,136.24	\$14,690.38
Estimated Annual Expenses	\$ 109.10	\$ 114.44	\$ 118.93	\$ 123.59	\$ 128.44	\$ 133.47	\$ 138.70	\$ 144.14	\$ 149.79	\$ 155.66

¹ Your actual expenses may be higher or lower than those shown.

Disclosure of Portfolio Holdings

The fund's portfolio holdings are disclosed on a regular basis in its semi-annual and annual reports to shareholders, and on Form N-Q, which is filed with the Securities and Exchange Commission (SEC) within 60 days of the fund's first and third quarter-ends. Due to the fact that you cannot purchase shares of the fund directly, these documents have not been made available on our website. However, these documents are available on the SEC's website at <http://www.sec.gov>. In addition, the fund's portfolio holdings as of each calendar quarter-end are made available to insurance companies issuing variable products that invest in the fund.

A description of the fund's policies and procedures with respect to the disclosure of the fund's portfolio holdings is available in the fund's Statement of Additional Information.

Fund Management

THE ADVISORS

Invesco Aim Advisors, Inc. (the advisor or Invesco Aim) serves as the fund's investment advisor and manages the investment operations of the fund and has agreed to perform or arrange for the performance of the fund's day-to-day management. The advisor is located at 11 Greenway Plaza, Suite 100, Houston, Texas 77046-1173. The advisor has acted as an investment advisor since its organization in 1976. Today, the advisor, together with its subsidiaries, advises or manages over 225 investment portfolios, including the fund, encompassing a broad range of investment objectives.

The following affiliates of the advisor (collectively, the affiliated sub-advisors) serve as sub-advisors to the fund and may be appointed by the advisor from time to time to provide discretionary investment management services, investment advice, and/or order execution services to the fund:

Invesco Asset Management Deutschland GmbH (Invesco Deutschland), located at Bleichstrasse 60-62, Frankfurt, Germany 60313, which has acted as an investment advisor since 1998.

Invesco Asset Management Limited (Invesco Asset Management), located at 30 Finsbury Square, London, EC2A 1AG, United Kingdom, which has acted as an investment advisor since 2001.

Invesco Asset Management (Japan) Limited (Invesco Japan), located at 25th Floor, Shiroyama Trust Tower, 3-1, Toranomon 4-chome, Minato-ku, Tokyo 105-6025, Japan, which has acted as an investment advisor since 1996.

Invesco Australia Limited (Invesco Australia), located at 333 Collins Street, Level 26, Melbourne Vic 3000, Australia, which has acted as an investment advisor since 1983.

Invesco Global Asset Management (N.A.), Inc. (Invesco Global), located at One Midtown Plaza, 1360 Peachtree Street, N.E., Suite 100, Atlanta, Georgia 30309, which has acted as an investment advisor since 1997.

Invesco Hong Kong Limited (Invesco Hong Kong), located at 32nd Floor, Three Pacific Place, 1 Queen's Road East, Hong Kong, which has acted as an investment advisor since 1994.

Invesco Institutional (N.A.), Inc. (Invesco Institutional), located at One Midtown Plaza, 1360 Peachtree Street, N.E., Suite 100, Atlanta, Georgia 30309, which has acted as an investment advisor since 1988.

Invesco Senior Secured Management, Inc. (Invesco Senior Secured), located at 1166 Avenue of the Americas, New York, New York 10036, which has acted as an investment advisor since 1992.

AIM Funds Management Inc. (AFMI), located at 5140 Yonge Street, Suite 900, Toronto, Ontario, Canada M2N 6X7, which has acted as an investment advisor since 1994. AFMI anticipates changing its name to Invesco Trimark Management Inc. on or prior to December 31, 2008.

Civil lawsuits, including a regulatory proceeding and purported class action and shareholder derivative suits, have been filed against certain of the AIM funds, INVESCO Funds Group, Inc. (IFG) (the former investment advisor to certain AIM funds), Invesco Aim, Invesco Aim Distributors, Inc. (Invesco Aim Distributors) (the distributor of the AIM funds) and/or related entities and individuals, depending on the lawsuit, alleging among other things: (i) that the defendants permitted improper market timing and related activity in the funds and (ii) that certain funds inadequately employed fair value pricing.

Additional civil lawsuits related to the above or other matters may be filed by regulators or private litigants against the AIM funds, IFG, Invesco Aim, Invesco Aim Distributors and/or related entities and individuals in the future. You can find more detailed information concerning all of the above matters, including the parties to the civil lawsuits and summaries of the various allegations and remedies sought in such lawsuits, in the fund's Statement of Additional Information.

As a result of the matters discussed above, investors in the AIM funds might react by redeeming their investments. This might require the funds to sell investments to provide for sufficient liquidity and could also have an adverse effect on the investment performance of the funds.

ADVISOR COMPENSATION

During the fund's fiscal year ended December 31, 2007, the advisor received compensation of 0.70% of the fund's average daily net assets, after fee waivers and/or expense reimbursements.

Invesco Aim, not the fund, pays sub-advisory fees, if any.

A discussion regarding the basis for the Board's approval of the investment advisory agreement of the fund is available in the fund's most recent report to shareholders for the six-month period ended June 30th.

PORTFOLIO MANAGERS

The following individuals are jointly and primarily responsible for the day-to-day management of the fund's portfolio:

- Clas G. Olsson (lead manager with respect to the fund's investments in Europe and Canada), Senior Portfolio Manager, who has been responsible for the fund since 1997 and has been associated with Invesco Aim and/or its affiliates since 1994.
- Barrett K. Sides (lead manager with respect to the fund's investments in Asia Pacific and Latin America), Senior Portfolio Manager, who has been responsible for the fund since 1995 and has been associated with Invesco Aim and/or its affiliates since 1990.
- Shuxin Cao, Portfolio Manager, who has been responsible for the fund since 2003 and has been associated with Invesco Aim and/or its affiliates since 1997.
- Matthew W. Dennis, Portfolio Manager, who has been responsible for the fund since 2003 and has been associated with Invesco Aim and/or its affiliates since 2000.
- Jason T. Holzer, Senior Portfolio Manager, who has been responsible for the fund since 1999 and has been associated with Invesco Aim and/or its affiliates since 1996.

The lead managers generally have final authority over all aspects of their portions of the fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio construction techniques, portfolio risk assessment, and the management of daily cash flows in accordance with portfolio holdings. The degree to which the lead managers may perform these functions, and the nature of these functions, may change from time to time.

More information on the portfolio managers may be found on the advisor's website <http://www.invescoaim.com>. The website is not part of this prospectus.

The fund's Statement of Additional Information provides additional information about the portfolio managers' investments in the fund, a description of their compensation structure, and information regarding other accounts they manage.

Other Information

PURCHASE AND REDEMPTION OF SHARES

The fund ordinarily effects orders to purchase and redeem shares at the fund's next computed net asset value after it receives an order. Insurance companies participating in the fund serve as the fund's designee for receiving orders of separate accounts that invest in the fund. The fund may postpone the right of redemption only under unusual circumstances, as allowed by the SEC, such as when the New York Stock Exchange (NYSE) restricts or suspends trading.

Although the fund generally intends to pay redemption proceeds solely in cash, the fund reserves the right to determine, in its sole discretion, whether to satisfy redemption requests by making payment in securities or other property (known as a redemption in kind).

Shares of the fund are offered in connection with mixed and shared funding, *i.e.*, to separate accounts of affiliated and unaffiliated insurance companies funding variable products. The fund currently offers shares only to insurance company separate accounts. In the future, the fund may offer them to pension and retirement plans that qualify for special federal income tax treatment. Due to differences in tax treatment and other considerations, the interests of fund shareholders, including variable product owners and plan participants investing in the fund (whether directly or indirectly through fund of funds), may conflict.

Mixed and shared funding may present certain conflicts of interest. For example, violation of the federal tax laws by one insurance company separate account investing directly or indirectly in a fund could cause variable products funded through another insurance company separate account to lose their tax-deferred status, unless remedial actions were taken. The Board will monitor for the existence of any material conflicts and determine what action, if any, should be taken. A fund's net asset value could decrease if it had to sell investment securities to pay redemption proceeds to a separate account (or plan) withdrawing because of a conflict.

EXCESSIVE SHORT-TERM TRADING ACTIVITY DISCLOSURES

The fund's investment programs are designed to serve long-term investors and are not designed to accommodate excessive short-term trading activity in violation of our policies described below. Excessive short-term trading activity in the fund's shares (*i.e.*, purchases of fund shares followed shortly thereafter by redemptions of such shares, or vice versa) may hurt the long-term performance of the fund by requiring it to maintain an excessive amount of cash or to liquidate portfolio holdings at a disadvantageous time, thus interfering with the efficient management of the fund by causing it to incur increased brokerage and administrative costs. Where excessive short-term trading activity seeks to take advantage of arbitrage opportunities from stale prices for portfolio securities, the value of fund shares held by long-term investors may be diluted.

The Board has adopted policies and procedures designed to discourage excessive short-term trading of fund shares. The fund may alter its policies and procedures at any time without giving prior notice to fund shareholders, if the advisor believes the change would be in the best interests of long-term investors.

Pursuant to the fund's policies and procedures, Invesco Aim and its affiliates (collectively the Invesco Aim Affiliates) currently use the following tools designed to discourage excessive short-term trading in the fund:

- (1) trade activity monitoring; and
- (2) the use of fair value pricing consistent with procedures approved by the Board.

Each of these tools is described in more detail below.

In addition, restrictions designed to discourage or curtail excessive short-term trading activity may be imposed by the insurance companies and/or their separate accounts that invest in the fund on behalf of variable product owners. Variable product owners should refer to the applicable contract and related prospectus for more details.

TRADE ACTIVITY MONITORING

To detect excessive short-term trading activities, the Invesco Aim Affiliates will monitor, on a daily basis, selected aggregate purchase, or redemption trade orders placed by insurance companies and/or their separate accounts. The Invesco Aim Affiliates will seek to work with insurance companies to discourage variable product owners from engaging in abusive trading practices. However, the ability of the Invesco Aim Affiliates to monitor trades that are placed by variable product owners is severely if not completely limited due to the fact that the insurance companies trade with the funds through omnibus accounts, and maintain the exclusive relationship with, and are responsible for maintaining the account records of, their variable product owners. There may also be legal and technological limitations on the ability of insurance companies to impose restrictions on the trading practices of their variable product owners. As a result, there can be no guarantee that the Invesco Aim Affiliates will be able to detect or deter market timing by variable product owners.

If, as a result of this monitoring, the Invesco Aim Affiliates believe that a variable product owner has engaged in excessive short-term trading (regardless of whether or not the insurance company's own trading restrictions are exceeded), the Invesco Aim Affiliates will seek to act in a manner that they believe is consistent with the best interests of long-term investors, which may include taking steps such as (i) asking the insurance company to take action to stop such activities, or (ii) refusing to process future purchases related to such activities in the insurance company's account with the funds. Invesco Aim Affiliates will use reasonable efforts to apply the fund's policies uniformly given the potential limitations described above.

FAIR VALUE PRICING

Securities owned by a fund are to be valued at current market value if market quotations are readily available. All other securities and assets of a fund for which market quotations are not readily available are to be valued at fair value determined in good faith using procedures approved by the Board of the fund. Fair value pricing may reduce the ability of frequent traders to take advantage of arbitrage opportunities resulting from potentially “stale” prices of portfolio holdings. However, it cannot eliminate the possibility of frequent trading.

See “Pricing of Shares—Determination of Net Asset Value” for more information.

RISKS

There is the risk that the fund’s policies and procedures will prove ineffective in whole or in part to detect or prevent excessive short-term trading. Although these policies and procedures, including the tools described above, are designed to discourage excessive short-term trading, they do not eliminate the possibility that excessive short-term trading activity in the fund will occur. Moreover, each of these tools involves judgments that are inherently subjective. The Invesco Aim Affiliates seek to make these judgments to the best of their abilities in a manner that they believe is consistent with the best interests of long-term investors. However, there can be no assurance that the Invesco Aim Affiliates will be able to gain access to any or all of the information necessary to detect or prevent excessive short-term trading by a variable product owner. While the Invesco Aim Affiliates and the funds may seek to take actions with the assistance of the insurance companies that invest in the fund, there is the risk that neither the Invesco Aim Affiliates nor the fund will be successful in their efforts to minimize or eliminate such activity.

PRICING OF SHARES

Determination of Net Asset Value

The price of the fund’s shares is the fund’s net asset value per share. The fund values portfolio securities for which market quotations are readily available at market value. The fund values all other securities and assets for which market quotations are not readily available at their fair value in good faith using procedures approved by the Board of the fund. The Board has delegated the daily determination of good faith fair value methodologies to Invesco Aim’s Valuation Committee, which acts in accordance with Board approved policies. On a quarterly basis, Invesco Aim provides the Board various reports indicating the quality and effectiveness of its fair value decisions on portfolio holdings. Securities and other assets quoted in foreign currencies are valued in U.S. dollars based on the prevailing exchange rates on that day.

Even when market quotations are available, they may be stale or they may be unreliable because the security is not traded frequently, trading on the security ceased before the close of the trading market or issuer specific events occurred after the security ceased trading or because of the passage of time between the close of the market on which the security trades and the close of the NYSE and when the fund calculates its net asset value. Issuer specific events may cause the last market quotation to be unreliable. Such events may include a merger or insolvency, events which affect a geographical area or an industry segment, such as political events or natural disasters, or market events, such as a significant movement in the U.S. market. Where market quotations are not readily available, including where the advisor determines that the closing price of the security is unreliable, the advisor will value the security at fair value in good faith using procedures approved by the Board. Fair value pricing may reduce the ability of frequent traders to take advantage of arbitrage opportunities resulting from potentially “stale” prices of portfolio holdings. However, it cannot eliminate the possibility of frequent trading.

Fair value is that amount that the owner might reasonably expect to receive for the security upon its current sale. Fair value requires consideration of all appropriate factors, including indications of fair value available from pricing services. A fair value price is an estimated price and may vary from the prices used by other mutual funds to calculate their net asset values.

The advisor may use indications of fair value from pricing services approved by the Board. In other circumstances, the advisor valuation committee may fair value securities in good faith using procedures approved by the Board. As a means of evaluating its fair value process, the advisor routinely compares closing market prices, the next day’s opening prices for the security in its primary market if available, and indications of fair value from other sources. Fair value pricing methods and pricing services can change from time to time as approved by the Board.

Specific types of securities are valued as follows:

Domestic Exchange Traded Equity Securities: Market quotations are generally available and reliable for domestic exchange traded equity securities. If market quotations are not available or are unreliable, the advisor will value the security at fair value in good faith using procedures approved by the Board.

Foreign Securities: If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE events occur that are significant and may make the closing price unreliable, the fund may fair value the security. If an issuer specific event has occurred that the advisor determines, in its judgment, is likely to have affected the closing price of a foreign security, it will price the security at fair value. The advisor also relies on a screening process from a pricing vendor to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current market value as of the close of the NYSE. For foreign securities where the advisor believes, at the approved degree of certainty, that the price is not reflective of current market value, the advisor will use the indication of fair value from the pricing service to determine the fair value of the security. The pricing vendor, pricing methodology or degree of certainty may change from time to time.

Fund securities primarily traded on foreign markets may trade on days that are not business days of the fund. Because the net asset value of fund shares is determined only on business days of the fund, the value of the portfolio securities of a fund that invests in foreign securities may change on days when you will not be able to purchase or redeem shares of the fund.

Fixed Income Securities: Government, corporate, asset-backed and municipal bonds and convertible securities, including high yield or junk bonds, are valued on the basis of prices provided by independent pricing services. Prices provided by the pricing services may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to special securities, dividend rate, maturity and other market data. Prices received from pricing services are fair value prices. In addition, if the price provided by the pricing service is unreliable, the advisor valuation committee may fair value the security using procedures approved by the Board.

Short-term Securities: The fund's short-term investments are valued at amortized cost when the security has 60 days or less to maturity.

Futures and Options: Futures and options are valued on the basis of market quotations, if available.

Swap Agreements: Swap Agreements are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service are based on a model that may include end of day net present values, spreads, ratings, industry and company performance.

Open-end Funds: To the extent the fund invests in other open-end funds, other than open-end funds that are exchange traded, the investing fund will calculate its net asset value using the net asset value of the underlying fund in which it invests.

The fund discloses portfolio holdings at different times to insurance companies issuing variable products that invest in the fund, and in annual and semi-annual shareholder reports. Refer to such reports to determine the types of securities in which a fund has invested. You may also refer to the Statement of Additional Information to determine what types of securities in which the fund may invest. You may obtain copies of these reports or of the Statement of Additional Information from the insurance company that issued your variable product, or from the advisor as described on the back cover of this prospectus.

The fund determines the net asset value of its shares on each day the NYSE is open for business, as of the close of the customary trading session, or earlier NYSE closing time that day.

TAXES

The amount, timing and character of distributions to the separate account may be affected by special tax rules applicable to certain investments purchased by the fund. Variable product owners should refer to the prospectus for their variable products for information regarding the tax consequences of owning such variable products and should consult their tax advisors before investing.

DIVIDENDS AND DISTRIBUTIONS

Dividends

The fund generally declares and pays dividends, if any, annually to separate accounts of insurance companies issuing the variable products. The fund expects that its distributions will consist primarily of capital gains.

Capital Gains Distributions

The fund generally distributes long-term and short-term capital gains, if any, annually to separate accounts of insurance companies issuing the variable products, but may declare and pay capital gains distributions more than once per year as permitted by law.

At the election of insurance companies issuing the variable products, dividends and distributions are automatically reinvested at net asset value in shares of the fund.

SHARE CLASSES

The fund has two classes of shares, Series I shares and Series II shares. Each class is identical except that Series II shares has a distribution or "Rule 12b-1 Plan" that is described in the prospectus relating to the Series II shares.

PAYMENTS TO INSURANCE COMPANIES

Invesco Aim Distributors, the distributor of the fund, or one or more of its corporate affiliates (Invesco Aim Distributors Affiliates), may make cash payments to the insurance company that issued your variable product or its affiliates in connection with promotion of the fund and certain other marketing support services. Invesco Aim Distributors Affiliates make these payments from their own resources.

Invesco Aim Distributors Affiliates make these payments as incentives to certain insurance companies to promote the sale and retention of shares of the fund. The benefits Invesco Aim Distributors Affiliates receive when they make these payments may include, among other things, adding the fund to the list of underlying investment options in the insurance company's variable products, and access (in some cases on a preferential basis over other competitors) to individual members of an insurance company's sales force or to an insurance company's management. These payments are sometimes referred to as "shelf space" payments because the payments compensate the insurance company for including the fund in its variable products (on its "sales shelf"). Invesco Aim Distributors Affiliates compensate insurance companies differently depending typically on the level and/or type of considerations provided by the insurance companies. The payments Invesco Aim Distributors Affiliates make may be calculated on

sales of shares of the fund (Sales-Based Payments), in which case the total amount of such payments shall not exceed 0.25% of the offering price of all shares sold through variable products during the particular period. Such payments also may be calculated on the average daily net assets of the fund attributable to that particular insurance company (Asset-Based Payments), in which case the total amount of such cash payments shall not exceed 0.25% per annum of those assets during a defined period. Sales-Based Payments primarily create incentives to make sales of shares of the fund and Asset-Based Payments primarily create incentives to retain assets of the fund in insurance company separate accounts.

Invesco Aim Distributors Affiliates are motivated to make the payments described above in order to promote the sale of fund shares and the retention of those investments by clients of insurance companies. To the extent insurance companies sell more shares of the fund or retain shares of the fund in their variable product owners' accounts, Invesco Aim Distributors Affiliates may directly or indirectly benefit from the incremental management and other fees paid to Invesco Aim Distributors Affiliates by the fund with respect to those assets.

In addition to the payments listed above, the advisor may also reimburse insurance companies for certain administrative services provided to variable product owners. Under a Master Administrative Services Agreement, between the fund and the advisor, the advisor is entitled to receive from the fund reimbursement of its costs or such reasonable compensation as may be approved by the Board. Under this arrangement, the advisor provides, or assures that insurance companies issuing variable products will provide, certain variable product owner-related services. These services, include, but are not limited to, facilitation of variable product owners' purchase and redemption requests; distribution to existing variable product owners of copies of fund prospectuses, proxy materials, periodic fund reports, and other materials; maintenance of variable product owners' records; and fund services and communications. Currently, these administrative service payments made by the fund to the advisor are subject to an annual limit of 0.25% of the average net assets invested in the fund by each insurance company. Any amounts paid by the advisor to an insurance company in excess of 0.25% of the average net assets invested in the fund are paid by the advisor out of its own financial resources, and not out of the fund's assets. Insurance companies may earn profits on these payments for these services, since the amount of the payments may exceed the cost of providing the service.

You can find further details in the Statement of Additional Information about these payments and the services provided by insurance companies. In certain cases these payments could be significant to the insurance company. Your insurance company may charge you additional fees or commissions, on your variable product other than those disclosed in this prospectus. You can ask your insurance company about any payments it receives from the advisor, Invesco Aim Distributors, or the fund, as well as about fees and/or commissions it charges.

Financial Highlights

The financial highlights table is intended to help you understand the fund's financial performance of its Series I shares. Certain information reflects financial results for a single fund share.

The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the fund (assuming reinvestment of all dividends and distributions).

The table shows the financial highlights for a share of the fund outstanding during the fiscal years indicated.

The information for the fiscal years ended 2007, 2006 and 2005 has been audited by PricewaterhouseCoopers LLP, whose report, along with the fund's financial statements, is included in the fund's annual report, which is available upon request. Information prior to fiscal year 2005 was audited by other independent registered public accountants.

	Series I				
	Year ended December 31,				
	2006	2005	2004	2003	2002
Net asset value, beginning of period	\$ 29.44	\$ 23.17	\$ 19.77	\$ 16.04	\$ 12.49
Income from investment operations:					
Net investment income ^(a)	0.34	0.23	0.23	0.15	0.09
Net gains on securities (both realized and unrealized)	3.98	6.32	3.31	3.70	3.54
Total from investment operations	4.32	6.55	3.54	3.85	3.63
Less dividends from net investment income	(0.13)	(0.28)	(0.14)	(0.12)	(0.08)
Net asset value, end of period	\$ 33.63	\$ 29.44	\$ 23.17	\$ 19.77	\$ 16.04
Total return ^(b)	14.68%	28.28%	17.93%	24.00%	29.06%
Ratios/supplemental data:					
Net assets, end of period (000s omitted)	\$792,779	\$563,460	\$444,608	\$346,605	\$290,680
Ratio of expenses to average net assets	1.06% ^{(c)(d)}	1.10%	1.11%	1.14%	1.10%
Ratio of net investment income to average net assets	1.06% ^(c)	0.90%	1.11%	0.90%	0.69%
Portfolio turnover rate	20%	34%	36%	48%	79%

^(a) Calculated using average shares outstanding.

^(b) Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.

^(c) Ratios are based on average daily net assets of \$667,461,477.

^(d) After fee waivers and/or expense reimbursements. Ratio of expenses to average net assets prior to fee waivers and/or expense reimbursements was 1.07% for the year ended December 31, 2007.

Obtaining Additional Information

More information may be obtained free of charge upon request. The Statement of Additional Information (SAI), a current version of which is on file with the Securities and Exchange Commission (SEC), contains more details about the fund and is incorporated by reference into the prospectus (is legally a part of the prospectus). Annual and semiannual reports to shareholders contain additional information about the fund's investments. The fund's annual report also discusses the market conditions and investment strategies that significantly affected the fund's performance during its last fiscal year. The fund also files its complete schedule of portfolio holdings with the SEC for the 1st and 3rd quarters of each fiscal year on Form N-Q. The fund's most recent portfolio holdings, as filed on Form N-Q, have also been made available to insurance companies issuing variable products that invest in the fund.

If you wish to obtain free copies of the fund's current SAI or annual or semiannual reports, please contact the insurance company that issued your variable product, or you may contact us at
