

One day it dawned on me.

These other policies aren't really "life" insurance.

Like any good insurance policy, Quality of Life...Insurance is there for your family should you die. But the same policy can offer options in case of a heart attack, stroke or invasive cancer. It can even help with treatment costs and offset lost income during that time. It's coverage so innovative that more than \$22 billion of protection has been sold in just over four years.

Watch a short video at qualityoflifeinsurance.com/omag

It's life insurance you don't have to die to use.
